

Ref. : MIP.0101-370-12/335

18/02/2014

Sub : Concerning the Export Laden Container Storage Application

MIP has decided to make improvements to the free storage periods of laden containers subject to export/domestic regimes.

The free storage periods of laden containers subject to export/domestic regimes, having entered the port area as laden from land or those stuffed within the port area, have been adjusted according to the principles stated below.

- Free storage period has been increased to 7 days for containers of which total laden storage period does not exceed 10 days.
- Free storage period will continue to be applied as 5 days for containers of which total laden storage period exceeds 10 days.
- Containers stuffed within the Land Terminal Area (TOKI) along with refrigerated and out of gauge (OOG) containers are not included in this application.
- This application will be applied for containers of which laden storage commencement date is after 01.03.2014 (included), and will be applied until further announcement.

You are kindly requested to circulate the subject announcement to all your members

Sincerely Yours ,

İsmail Hakkı TAS  
General Manager
